Office of Planning, Design and Construction

CONSTRUCTION ACTIVITY NOTICE

CHAPIN HALL Summer 2015

May 15, 2015

Building Occupants of Chapin Hall, Bernhard, Paresky, Williams Hall, Sage Hall, Hollander Hall

This correspondence provides a status update for the CHAPIN HALL performance space upgrade project.

Dates for Activity: May 2015 through September 2015 (Completion is anticipated October 1, 2015)

Work Activities: Interior improvements of the Chapin Hall performance space.

Impact to Adjacencies:

- The actual work of this project is confined to the basement, performance level and attic spaces of Chapin Hall.

- The immediate impact to adjacencies will be an elevated level of traffic and noise in the area as workers and materials access the work site. While there is not any actual work being performed in Bernhard Music Center the proximity to Chapin Hall will lend those spaces to occasional disruptions of elevated noise for limited periods of time.

- A temporary construction fence will be installed along the east side of Chapin Hall Drive (from the south corner of Chapin north to the west entrance door across from Williams Hall) to create a laydown area for materials and equipment.

- The CHAPIN HALL auditorium will be closed for use during the entire duration of this project.

- A number of the practice rooms in the basement of Chapin Hall will remain accessible during this project but may be impacted by the noise and activities of the construction processes.

- All construction workers have been instructed to utilize the parking garage on Whitman Street or the Mission Park parking lot.

Additional Information:

- This project is happening concurrently with the New Quad and Sawyer Demo Project.

- There will be elevated level of activity and noise in this area generated from both of these projects.
• Work Hours: Monday – Friday, 7AM-5PM. Weekend work will be required, though none is scheduled at this time.
