May 6, 2016

Adjacent Building Occupants of Morley Science Center

This correspondence provides a status update for the Schow Science Library Classroom project.

**Dates for Activity:** May 24, 2016 through August 2016

**Work Activities:** Interior Building Renovations to Construct Classrooms and Student Spaces

**Impact to Adjacencies:**

- Williams College is pleased to announce our renovation and build-out of two new classrooms within the existing Schow Science Library. Once the construction is complete it will provide two new classrooms as well as student study common spaces.

- The project is scheduled to commence May 24, 2016 and be completed August 2016.

- The initial demolition work and dumpsters will be segregated with temporary construction fence as required to provide safety around the area for pedestrians.

- Access around Morley Circle will not be impacted during this project and any deliveries will be done as to not impact ongoing operations around the southeast side of Morley Science.

- There will be some noise within the building as the new and renovated spaces are constructed.
