Construciton Activity Notice

Service Building Roof Replacement

October 12, 2016

Adjacent Building Occupants of the Service Building (60 Latham Street)

This correspondence provides a status update for the Service Building Roof Replacement.

Dates for Activity: Mid-October through Mid-November

Work Activities: Vanguard Roofing will be installing a new membrane roof on the Service Building starting on Tuesday, October 18, 2016.

Impact to Adjacencies:

- Access to the roof will require blocking off several parking spaces in the parking lot on the east side.
- Delivery trucks, dumpsters and hoisting equipment will be located and operating in the east side parking lot.
- Traffic circulation around the Service Building may be briefly interrupted at various times during the project.
- A certain level of noise and dust associated with the removal and replacement processes should be anticipated.
- Standard work hours are 8:00 am to 5:00 pm but may extend later in the day as required to provide a water tight condition at the end of a shift/day.
- Project is expected to take three to four weeks from start to completion.
