CONSTRUCTION ACTIVITY NOTICE

Williams College Children’s Center Modular Building

12/9/16

Williams College Children’s Center

This correspondence provides notification for the Modular Classroom Building planned for the west yard at the Children’s Center.

Dates for Activity: December 12, 2016 - January 6, 2017

Work Activities: Site preparation/Modular install/On-site construction

Impact to Adjacencies:

Planned work:

- The week of December 12th will focus on final site preparations in anticipation of delivery of 2 modular units.
- A crane will be delivered on Friday afternoon, 12/16, and will be parked at the CTD loading ramp overnight. The crane will be moved to the Children’s Center on Saturday morning for modular installation and returned to CTD loading ramp Saturday evening. The crane will be transported from loading ramp on Monday morning at 9:00am.
- The modular units will be set in place by crane on Saturday 12/17, when the Children’s Center is closed.
- Workers may be on site on Sunday, 12/18, to work on perimeter containment of modular units as well as prep area for site built components. This work will consist of hand tools only, no heavy machinery.
- Work performed during the week of 12/19 and moving forward will consist of interior work within the modular and site built components connecting the modular to the existing Center.

- Work hours for this project are 8am-5:30 pm, Monday through Friday, Saturday & Sunday 9 am – 5:30pm
