Office of Planning, Design and Construction

CONSTRUCTION ACTIVITY NOTICE

Center for Development Economics Site Work
1065 Main St.

DATE: 3/14/2017

CDE and Adjacent Properties

This correspondence provides notification for tree and soil removal in the area South of the main CDE Building.

Dates for Activity: March 17, 2017 – April 14, 2017

Work Activities: Tree removal in foot print of and at the western edge of the new CDE Residence Hall. Soil excavation in the foot print of the new CDE Residence Hall.

Impact to Adjacencies:

- On Friday afternoon, 3/17/17, a tree removal contractor will begin cutting trees in the footprint of the new CDE Residence Hall. Work will continue on Monday, 3/20/17 to remove the identified trees West of the new CDE Residence Hall. Tree removal is planned to be complete by the end of the day on Monday, 3/20/17. We will NOT be removing the trees North of the main CDE building at this time. See attached tree removal plan.

- Beginning on Monday, 3/20/17 and continuing through Thursday, 3/23/17 a site contractor will be placing construction fencing around a portion of the new CDE Residence Hall footprint and will be excavating soil within the fenced area. All excavated soil will be placed in dumpsters and stored on site until disposal can occur. Construction fencing will remain until building construction begins in May. See attached soil excavation plan.

- Work hours will be from 8am until 6pm, weekdays. There will be construction noise as tree cutting and excavation occurs as well as when the dumpsters are removed from the site.
