April 20, 2017

Adjacent Occupants of MSL 246, 246A and TSL 007 (old GIS Lab)

This correspondence provides a status update for the Science Center enabling work in MSL and TSL this Spring/Summer. This will include:

**Dates for Activity:** April 24, 2017-August 21, 2017

1. Starting Monday April 24, 2017 TSL 007 (old GIS Lab) will undergo renovations that will continue until August 2017. During this work you may experience
   - Isolated noise and vibration
   - Traffic in the halls associated with material delivery
   - Scheduled utility shutdowns (if necessary will be coordinated with the impacted departments well in advance)
   - The majority of the disruptive work will take place after final exam period

   Temporary partitions and dust control measures will be in place prior to any work starting

   *Work that is performed prior to final exams will be monitored and be of a magnitude that will not disrupt the academic programs within the building*

2. Starting Monday April 24, 2017, GIS 007, 007A and 007B will undergo renovations that will continue until August 21, 2017 During this work you may experience
   - Isolated noise and vibration
   - Traffic in the halls associated with material delivery
   - Scheduled utility shutdowns (if necessary will be coordinated with the impacted departments well in advance)
   - The majority of the disruptive work will take place after final exam period

3. Starting May 24, 2017 additional labs will start going offline and similar activities will commence in these spaces that will be addressed in a future Construction Activity Notice (CAN)

   Temporary partitions, soundproofing and dust control measures will be in place prior to any work starting

   *Work that is performed prior to final exams will be monitored and be of a magnitude not to disrupt the academic programs within the building*

4. Starting on May 06, 2017 new hood vacuum pumps will be installed in rooms MSL 241,245, and 252. This work may involve short periods of noise and is expected to take two days
5. Future Work

**Dates for Activity:** August 24, 2017-May 15, 2018

Similar work will take place in various locations on MSL and TSL. More information on this work and the locations will be shared in the upcoming weeks.
