DATE: 5/3/2017

CDE, Adjacent Owners and Williams College Properties

Williams College is pleased to announce the commencement of the geothermal well drilling in the lawn and parking lot area West of the main CDE Building.

**Dates for Activity:** Wednesday, May 24, 2017 through July 14, 2017

**Work Activities:** Well drilling for the eight additional required wells which support the geothermal heating and cooling system for the new CDE Residence Hall.

**Impact to Adjacencies:**

- Cushing Wells will be on site beginning on Wednesday, 5/24/17 to begin drilling of eight geothermal wells. The contractor will be arriving mid-morning and is expected to begin drilling late morning/early-afternoon. The total scheduled time for drilling of all wells is six to seven work weeks.

- Equipment and machinery will be located in the driveway of the CDE as well as on the lawn West of the main CDE Building.

- Construction fence will be erected on the site to limit access to construction activities to authorized personnel.

- There will be construction noise as drilling occurs for each of the wells.

- Work hours for the drilling will be from 8am until 6pm, weekdays.

- There will be no work on Thursday and Friday, June 8th and 9th.

- Any changes to the plan identified above will be communicated via a follow up construction activity notice.
