June 20, 2017

Adjacent Occupants and users of the Mt. Hope Bridge on Riverview Rd.

This correspondence provides a status update for the upcoming repairs to Mt. Hope Bridge.

**Dates for Activity:** June 20, 2017 – October

**Work Activities:** Planning and Pre-Construction Activities

Williams College is pleased to announce the planned replacement of the bridge at the entrance to Mount Hope Farm. This will be a complete replacement of the bridge with a bridge of similar size and look to the existing. Over the coming summer and fall months, various crews from Maxymillian will be on site to survey and collect data as we proceed through the design and permitting processes. No demolition or construction will take place until January 2018.

**Impact to Adjacencies:**

- Surveyors from SMC will be on site tomorrow and Friday for data collection.
- Various other visits will be made by other disciplines for similar, non-construction activities.
- The bridge will remain open until January 2, 2018.
- The bridge will be closed from January 2, 2018 thru September 2018.
- The main driveway to the mansion will reopen before the bridge is closed.
- Once the bridge is closed, access will be via the Hopper Rd. Bridge and the South end of River View Rd.
- The Cow Barn will remain accessible throughout this project.
