June 13, 2017

**Work Area:** Hoxsey Street, heading west along the construction access road to Stetson Court.

This correspondence provides an update for the expansion of the college electrical system.

**Work Activities:** Manhole/ductbank installation crossing Hoxsey Street, heading west along the shoulder of the construction access road to Stetson Court.

**Impact to Adjacencies:**

- Starting June 19, manhole/ductbank installation will start by crossing Hoxsey Street and then head west along the shoulder of the construction access road to Stetson Court. One way traffic will be experienced during construction hours, but will be steel plated at night to maintain normal traffic routes during non-construction hours.
- Two way traffic will be maintain along the construction road to Stetson Court and there will be no parking spaces impacted at the Health Center. The Hewitt House drive along Hoxsey Street will be closed, but the driveway along Walden Street will be accessible.
- A Police detail has been scheduled for this work to assist with traffic management.
- There will be temporary fencing installed within the area of work. These fences will be adjusted with the work area accordingly. Please respect the location of this fence and do not enter the site.
