Office of Planning, Design and Construction

CONSTRUCTION ACTIVITY NOTICE

Weston Field – Siding Replacement

July 27, 2017

Work Activities: Siding replacement

Impact to Adjacencies:

- Since the project was completed, the siding on both buildings, specifically the east, west and south side, began to fail. Williams has been working with the design/construction team to repair/replace the siding.
- Starting Monday, July 31, we will begin to replace the siding at the Team Support Building and the Pressbox.
- All work activities will be limited to the outside of the buildings and there should be little to no disruption to previously scheduled activities.
- A few parking spaces will be utilized for a laydown area and dumpster location.
- It is planned to complete this work prior to fall sporting events.
