Office of Planning, Design and Construction

CONSTRUCTION ACTIVITY NOTICE

Williams Inn

October 31, 2017

Adjacent Building Occupants – Susie Hopkins & Oakley.

This correspondence provides a status update for the construction of the Williams College Williams Inn project.

Dates for Activity: November 1, 2017

Work Activities: Power will be shutdown to both Susie Hopkins and the Oakley center from 9 AM to 4 PM on Wednesday, November 1, 2017 to allow for the relocation of existing power lines outside of the inn project footprint.

Details and Impact to Adjacencies:

- National Grid has informed the college that it intends to perform work required to remove existing overhead lines feeding Susie Hopkins and the Oakley Center tomorrow, November 1, at 9 am. The refeed of these two buildings will require that the panels in both houses be partially rewired to provide grounding per National Grid direction. This will require power to be out from 9 am to 4 PM. We are doing everything in our power to reduce this duration including utilizing two crews.
- Construction related deliveries will avoid Spring St. and follow the routing being utilized for the Science Center.
- Construction fencing will be secure the perimeter of the work area.
- There will be construction and equipment noise during the duration of this activity. Normal work hours will be Monday through Friday from 7:00am – 5:00pm and Saturday work as necessary.
