Office of Planning, Design and Construction

CONSTRUCTION ACTIVITY NOTICE

Christmas Brook Culvert

November 7, 2017

Weston Field, Latham & Meacham Street, Heating Plant Drive, Dirt Parking Lot Area and Water Street.

This correspondence provides an update for the Christmas Brook Culvert.

Work Activities: Start Date

Impact to Adjacencies:

- The Christmas Brook Culvert Replacement will start in the area of Weston Field the week of November 13 (after Homecoming). The work in the area of Water Street has yet to be scheduled.
- Access to Weston Field (from Latham Street) will remain during construction, though the access point may shift from week to week.
- At various stages throughout construction, some roads and sidewalks will be closed as a result of this work. Latham Street will be impacted and could be limited to one way during the day.
- The work is scheduled to take 12 months to complete.
- During construction, this project will greatly impact your ability to navigate throughout the work area listed above in a timely fashion. There will be one way roads, temporary traffic lights, temporary sidewalks, police details for taking deliveries along sides of the roads, parking inconveniences and noise associated with substantial earthwork excavation (back up alarms, ledge removal, driving steel beams and sheets 20’-30’ vertically into the ground using heavy machinery).
- More information will be distributed in the coming weeks.
