CONSTRUCTION ACTIVITY NOTICE

Christmas Brook Culvert

November 27, 2017

Water Street.

This correspondence provides an update for the Christmas Brook Culvert.

**Work Activities:** Water Street One-Way Traffic

**Impact to Adjacencies:**

- The traffic management plan for Water Street and transforming the road in the area adjacent to the dirt parking lot to one-way should be approved by Mass Highway DOT in the very near future. Once approved, as early as November 29, Water Street will become one-way for the next few months. Traffic signs and devices will begin to be installed per the traffic management plan starting immediately.

Information from the previous CAN for this project:

- At various stages throughout construction, some roads and sidewalks will be closed as a result of this work.
- The work is scheduled to take 12 months to complete.
- During construction, this project will greatly impact your ability to navigate throughout the work area listed above in a timely fashion. There will be one way roads, temporary traffic lights, temporary sidewalks, police details for taking deliveries along sides of the roads, parking inconveniences and noise associated with substantial earthwork excavation (back up alarms, ledge removal, driving steel beams and sheets 20'-30' vertically into the ground using heavy machinery).
