CONSTRUCTION ACTIVITY NOTICE

Christmas Brook Culvert

January 17, 2018

This correspondence provides an update for the Christmas Brook Culvert.

Work Activities: Latham Street One-Lane Traffic

Impact to Adjacencies:

- For the next few days, Latham Street, near the front entrance to the Facilities Building, will be one lane for traffic. This work will be necessary to field verify existing utilities within Latham Street.
- A Police Detail will be onsite at all times during this work. Latham Street will be open to both lanes of traffic during nights and weekends.

Information from the previous CAN for this project:

- At various stages throughout construction, some roads and sidewalks will be closed as a result of this work.
- The work is scheduled to take 12 months to complete.
- During construction, this project will greatly impact your ability to navigate throughout the work area listed above in a timely fashion. There will be one way roads, temporary traffic lights, temporary sidewalks, police details for taking deliveries along sides of the roads, parking inconveniences and noise associated with substantial earthwork excavation (back up alarms, ledge removal, driving steel beams and sheets 20'-30' vertically into the ground using heavy machinery).
