CONSTRUCTION ACTIVITY NOTICE

Thompson Biology and Physics Entrances

January 30, 2018

Adjacent Occupants and users of Thompson Physics and Biology Labs

This correspondence provides a status update for the upcoming construction at the TBL and TPL entrances.

Williams College is pleased to announce that with the recommissioning of the TCL entry, it will move on to Phase 2 of the Science Labs Entrance Improvements project.

- Tentative work schedule: March 19-March 30
- The work is limited to the installation of new handrail systems at TPL and TBL.
- When complete, the handrails at all 3 entries will match.
- Installation dates will be pending favorable weather.
- If weather does not cooperate, we will wait until after Commencement and install the rails in June.
- Some short-duration (1-2 days at a time) entrance closures will be necessary.
- Typical construction related noise should be expected, i.e.: metal cutting and grinding, concrete drilling.
- Heavy equipment will not be used for this phase of the project.
