CONSTRUCTION ACTIVITY NOTICE

Thompson Biology and Physics Entrances

March 12, 2018

Adjacent Occupants and users of Thompson Physics and Biology Labs

This correspondence provides a status update for the upcoming construction at the TBL and TPL entrances.

The installation of the new railings at TPL and TBL is rescheduled to June due to uncooperative weather. Another CAN fill follow in May announced a more concise start date and duration.

- Tentative work schedule: March 19-March 30 **POSTONED** to mid-late June.
- The work is limited to the installation of new handrail systems at TPL and TBL.
- When complete, the handrails at all 3 entries will match.
- Installation dates will be pending favorable weather.
- If weather does not cooperate, we will wait until after Commencement and install the rails in June.
- Some short-duration (1-2 days at a time) entrance closures will be necessary.
- Typical construction related noise should be expected, i.e.: metal cutting and grinding, concrete drilling.
