CONSTRUCTION ACTIVITY NOTICE

Mt. Hope Bridge Replacement

April 11, 2018

Adjacent Occupants and users of the Mt. Hope Bridge on Riverview Rd.

This correspondence provides a status update for the upcoming replacement of the Mt. Hope Bridge.

Dates for Activity: April 17 Fire Road closure

Work Activities:

- J.H. Maxymillian Inc. will be delivering the 60' long bridge beams that will span the Green River on April 17.
- Five beams, requiring 10 truck-trips, will be delivered and set in place all in one day and will require unencumbered access to the fire road.
- Residents and College support vehicles should plan to use the southern route along Riverview Rd. for the day.
- Emergency vehicle access to Mt. Hope and the barns will be via Hopper Rd. or the South end of River View Rd. Please text Site Superintendent (number sent in separate communication) if emergency access via the Fire Road is required so we can clear the way.
