CONSTRUCTION ACTIVITY NOTICE

Public Parking Lot Reconfiguration

April 30, 2018

Public Parking Lot at the base of Spring Street.

This correspondence provides an update for the reconfiguration of the Public Parking Lot.

Work Activities: Reconfiguration/pavement installation. **Highlight = entire parking lot available for use on /or before May 18.**

Impact to Adjacencies:

- Starting either **May 4 or May 7**, the parking area configuration will be modified to prepare for installing pavement. There will be **three different phases that will all happen within a two-week period**. There are three sketches attached showing the work area (blue)/parking area (red).
- In order to limit the disruption to the users of the parking lot, work activities may occur early in the morning or later in the evening. An example, transitioning from phase one to phase two, fence adjustment and line painting could occur at sunrise so that the parking area will be ready for use that day.
- Walden Street will continue to be the access point for the parking lot.
- At/around **May 18**, the entire parking lot will open for use, along with vehicle access to and from Spring Street reestablished. Temporary pedestrian walkways will still exist and be ongoing until the project is complete.
- All of this work is dependent on favorable weather, therefore the duration could increase or decrease. Notification will be sent should there be any substantial schedule adjustments from the aforementioned.
- **NOTE:** There will still be work planned throughout the summer to finalize the parking lot (setting curbs, installing lights, final paving, landscaping) which will result in parts of the parking lot to be closed.
- October 2018 the southern most parking bay will become part of the Inn construction site, leaving over 130 parking spaces available for public use.
- Noise/disturbances associated with construction (back up alarms, excavations, dust, mud and trucks) should be expected.
- Additional signage and police details will be on hand to help with the transition periods.
- Further circulation of this document will be greatly appreciated.
- Thank you in advance for your patience.
