

Office of Planning, Design, and Construction

## **CONSTRUCTION ACTIVITY NOTICE**

Morgan Hall Roof Replacement

May 15, 2019

Morgan Hall.

**Work Activities:** Roof replacement.

### **Impact to Adjacencies:**

- The slate roof will be replaced at Morgan Hall with a new slate roof.
- Construction will begin on May 22, 2019 at 7AM. The first activity will be the installation of a 6' tall chainlink fence on the north and south side of the building. Fencing will not be installed on the east or west side so that building access can be maintained. Once the fence installation is complete, scaffold will be erected and the physical roof replacement work will begin.
- The sidewalk between Morgan Hall and the Williams Shop, leading from Spring Street to Jesup Hall, will be closed during construction. Access to the back door of Jesup will be maintained.
- Construction will take place 7AM-5PM, Monday – Friday, until June 10. After June 10 and through August 30, work hours will be 6AM-5PM. September 3 – December 20, work hours will be 8AM-5PM. Saturday work will occur when necessary to maintain the construction scheduled.
- No work is proposed from May 31-June 2 and June 7-9.
- The building is scheduled to be offline for the summer to complete the work. In the fall, the third and fourth floors will remain offline so that the work can be completed with minimal disturbance to students.
- There should be minimal impact to Lab Campus Drive, mainly when taking material deliveries. It is proposed to maintain vehicle traffic at this time on this drive.
- As mentioned above, there will be adjustments to the pedestrian paths in the surrounding area. Signage will be installed as necessary.
