

Electrical maintenance is scheduled for June 17, 2020. There will be **multiple** campus wide power outages on this day and there will be many impacts across campus.

6:30AM – 7:30AM

- Campus wide power outage. Power should be restored on or around 7:30AM.

6:30AM – 6:00PM

- Lawrence Hall, Chandler Athletic Center, Lasell, Simon Squash, Goodrich Hall, Hockey Rink and Field House will remain **without power until all electrical maintenance and repairs are completed: expected from 6:30AM – 6:00PM.**

6:00PM – 7:00PM

- Campus wide power outage to restore campus to “Normal”. In the event the work above is completed early, the campus may prefer to return to “Normal” as soon as possible. In this event, all communication attempts will be made possible so that all departments be made aware. During this time Driscoll Dining will remain operational for Dinner.

A temporary generator will also be placed at the Log to allow Ramuntos to remain in operation with little to no impact. The building may experience an additional 30 minutes without power after 7:30AM to make this transition to generator power. After the Log closes, normal power will be restored; sometime after 11PM.

Off-campus access to email, the Google Suite, PeopleSoft, Glow, and other systems will be available as normal. Please contact OIT with any questions relating to these topics: <http://oit.williams.edu/>.
